## INDUSTRIAL HEPA DUST COLLECTOR

- Biggest Damn Vacuum on the market!
- Designed and built like an AMERICAN tank.
- Motor controls include a soft-start for comfort and equipment longevity.
- Quiet, but effective.
- (20) primary filtration socks backed by HEPA filtration.
- HEPA canister filter is located in a dedicated filter chamber. No compromising the primary vacuum chamber with doors and hinges.
- Achieve longer run times with maximum filtration and continuous bagging system.
- Strong enough to clean up after the biggest cutters and grinders on the job.
- Pair with our Pre-Separator for maximum run time on the job and extend filter and vacuum life.

### ALL VACUUMS INCLUDE:

- 60 feet of elongated bag
- Vacuum hose

### TECHNICAL SPECS

Specification	BDV-4250
Weight	585 lbs
Height	70.5"
Width	28.5"
Length	42.0"
Ground Clearance	3.0"
HEPA Filtration Level	99.97% @ 0.3micron
Airflow	425 cfm
Lift	130"
Motor Output	8.5 hp
Electric Circuit	230V-40A, 380V-40A, or 460V-30A
Sock Filters Included	20
Sock Filtration Area	37.7 ft <sup>2</sup>
HEPA Filtration Area	54.2 ft <sup>2</sup>
Length of Hose	50'
Hose Size	3"
